

Saint Francis Health System, a pioneer in trauma care, is currently recruiting for Trauma Surgeons to join our newly formed state-of-the-art Trauma Institute team. It features a well-resourced acute care surgery service, a highly collaborative relationship with the hospital's surgical groups, and a structure appropriate for a major regional hospital center of excellence.

Board certification or eligibility in surgery and critical care is desired, experience in a high volume trauma program is preferred. We offer a competitive compensation package including a generous base salary, retirement with employer match and productivity-based bonuses.

The Trauma Center at Saint Francis

- Cares for the majority of major trauma in the greater Tulsa/NE Oklahoma.
- 600 ISS >15 annually with a total volume > 2000. This is a busy, high severity trauma center.
- Currently a Level II trauma center with emergency medicine and small surgical residency support.
- Busiest ER in the region with over 75,000 visits per year.
- Excellent potential for new acute care surgery and surgical critical care.
- Leader in the new and well funded Oklahoma Trauma System
- Enjoys a rich history in trauma care including a Chair of the ACS Committee on Trauma

Located in Tulsa, Saint Francis Hospital sits in the heart of the city. With trendy shopping areas, new river development, downtown district expansion, very stable real estate market and four-season outdoor activities, Tulsa has what you are looking for in a city! Excellent public and private schools and low cost of living make it an attractive relocation destination for families. Voted as one of the top places to relocate to in 2008--If you haven't been, you don't know what you are missing!
