

## **Director of Trauma Services**

*Inova Fairfax Hospital, a nationally recognized 833-bed regional medical center, seeks a strong, strategic leader for its Regional Trauma Center who will assume a broad range of administrative, budgetary and program development responsibilities in trauma, surgical critical care and general surgery.*

Our Level I Trauma Center treats over 3,000 trauma patients annually and is distinguished with in-house attending coverage; a surgical critical care service with 24/7 in-house coverage; a mature clinical research program; education for fellows, residents and students; community outreach and more.

The candidate we seek will be a Virginia-licensed (or eligible) RN with a Master's degree in Nursing, Business Administration or a related field; experience in trauma care, administration and program development; and a strong commitment to research and education.

In addition to excellent compensation and benefits, we offer ideal living in the Northern Virginia/Washington, DC area - close to the Chesapeake Bay and the monumental excitement of the nation's capital. For details and to apply, please call: (703) 776-8981, fax: (703) 776-2268 or visit:
