

Look ahead.

Feel confident. Be valued. At **Northwestern Memorial Hospital** you can be part of a prominent, growing institution—one with the finest resources and facilities.

EMERGENCY DEPARTMENT

As Illinois' only Chicago-based academic medical center with an adult Level I trauma system, Northwestern Memorial's Emergency Department (ED) treats more than 68,000 patients annually. Our on-site ED services include a CAT scanner, 24-hour laboratory and 3 radiology rooms to deliver fast and efficient emergency care. Additionally, a separate urgent care center provides rapid treatment for patients with minor injuries or illnesses.

We currently seek experienced nursing professionals to join our **Emergency Department** in the following roles:

TRAUMA COORDINATOR - Req# 009756

Current IL RN licensure or eligibility and TNS or TNCC required.

EMERGENCY MEDICAL SERVICES COORDINATOR - Req# 009670

The Coordinator Emergency Medical Services (EMSC) for EMS Region XI is a professional registered nurse responsible for coordination of the EMS system activities.

ADVANCED PRACTICE NURSE - Req# 006402

MSN; current IL APN licensure; NP certification by a national certifying body as approved by the IL Department of Regulation APN board; and 2 years experience in Emergency Department are required.

Northwestern Memorial Hospital offers premier resources, education, avenues for growth, and benefits like domestic partner coverage, housing assistance, and health coverage featuring our renowned physician network.

For more information and to submit your resume, please apply online at:
