

Feels like a million.

The excitement is building at Truman Medical Centers as we proceed with our million-dollar ER expansion. A Level I Trauma Center and Kansas City's premier teaching hospital, we provide emergency services for approximately 50,000 patients per year and serve as the backup medical command for every hospital in the metropolitan area. Our Emergency Medicine residency training program is one of the oldest in the country and carries full ACGME accreditation.

ER RNs - FT Nights

M-F, 3x/wk, 7p-7a. New grads welcome.

ER Patient Care Manager - FT Days

BSN, MO RN licensure and 3+ years' nursing management experience required.

Truman Medical Center Hospital Hill

Hospital Hill provides an array of acute care and outpatient services. It is perhaps best known for its emergency and trauma services. TMC Hospital Hill has the busiest adult emergency room in the Kansas City metropolitan area with more than 56,000 visits a year. In addition to Emergency Medicine and Trauma, TMC Hospital Hill is also noted for Asthma, Bariatrics, Diabetes, Obstetrics, Ophthalmology, Weight Management and Women' Health.

*Come **GROW** with us...*

Major renovations are underway at Hospital Hill's Emergency Department. The new HH Emergency Department will be twice as large and offer better service.

Be a part of our exciting, fast-paced healthcare environment and enjoy excellent opportunities to learn and grow.
