

**UNIVERSITY OF KANSAS MEDICAL CENTER
Trauma/Critical Care Surgeon**

PDF Version of AD

A growing, financially strong academic medical center is seeking a Trauma/Surgical Critical Care physician for its ACS Level I Trauma Center. The University of Kansas Medical Center in Kansas City offers more than 200 medical specialties, including leading cancer, cardiovascular and neuroscience programs. KU Med also has the area's only burn center and transplant program for liver, pancreas and kidneys.

The ACS Level I Trauma Center includes the only all board certified critical care team in the region. Our multi-disciplinary approach provides physicians with the opportunity to work with all the health care professionals.

Applicants should be ABS certified (or eligible) with added Trauma and/or Critical Care qualifications desired. Experience at a Level I Trauma Center preferred. Applicants should be excellent communicators, highly motivated and goal oriented. Primary responsibilities include caring for trauma and surgical critical care patients. The position requires a strong commitment to extensive clinical research as well as education for residents and medical students.

The University of Kansas Medical Center is located in the highly affordable Greater Kansas City metropolitan area, close to beautiful urban and suburban homes and top quality private and public schools. Nationally recognized cultural and sports programs are available, as well as recreation activities for all ages.

Interested applicants should submit curriculum vitae and letter of application to:

James H. Thomas, MD
Professor
Chief of General/Vascular Surgery
